

## THE ART AND SCIENCE OF TMJ ASSESSMENT AND TREATMENT

APRIL 29 - 30, 2023

**Course Description:** This course will provide an excellent opportunity for students to build their confidence recognizing, assessing and treating temporomandibular disorders (TMD). This course uses an evidence-based protocol (DC/TMD) for diagnosis.

### **Course Objectives**

Upon completion of the course, participants will be able to:

- Learn how to describe and understand TMJ anatomy, biomechanics and pathomechanics
- Recognize contributing etiology
- Learn how to simply and easily assess the TMJ and determine potential diagnoses
- Learn manual techniques, exercises and management strategies for the treatment of TMD
- Understand the role of the physiotherapist
- Understand and identify the complex patient and team approach
- Have confidence educating your patients about management and self-care

**Instructor:** Joyce Clark PT, BSc.PT, MCPA, PGCPain, CCTT, Certified Cervical & Temporomandibular Therapist, by the Physical Therapy Board of Craniofacial and Cervical Therapeutics, Affiliate Member of American Academy of Orofacial Pain Joyce has been passionate about treating and teaching TMJ related issues for over 30 years. She is one of 7 physiotherapists in Canada with a CCTT designation from the US.

**Course Format:** Course format will include lectures and a patient demonstration by an instructor. A major portion of the course will involve laboratory practice sessions. During lab sessions, participants will have the opportunity to analyze normal movement and practice handling skills to facilitate functional movement patterns in normal adults during sitting/standing activities and transitions.
